

Increase the efficiency of labelling cylindrical containers.

Model : 3DH series

Automatic Bottle/Wrap-around Labeller

Fully Synchronised

Model : 3DAP series

Automatic Bottle/Wrap-around Labellers

Models Available

Model	Label Width (Max)	Label Length(Max)
3DH100	100mm	200mm
3DAH140	140mm	250mm
3DH190	190mm	250mm

Available with 1 or 2 labelling heads for single side or dual side labelling

Integrated, stand-alone system suitable for flat, round and oval bottles. Conveyor speeds up to 30M/Min, label widths up to 190mm, 1 or 2 labelling heads. Full system synchronisation via PLC (programmable logic controller). Options include wrap around unit, overhead belt and product separator. Supplied with stainless steel mounting table.

- Increased productivity
- Precise and repeatable label placement
- Reduced waste
- Professional look to your finished products

Key Features Include:

- Precision label placement using stepper motor control
- Variable speed conveyor belt (0 - 30m/min).
- Controlled by a Programmable Logic Controller (PLC).
- Automatic synchronization of all components.
- Max. label width 100, 140 & 190mm depending on model.
- 1 (1H) or 2 (2H) labelling heads.
- Suitable for flat, round, oval and conical products.
- Suitable for seal labels.
- Warning lamp.
- Optional upper counter roller for overhead product stabilization during labelling and spacing wheel for separating products.
- Conveyor size: Length 1500mm, Width 150 or 200mm.
- Height adjustable stainless table.
