slitter attachment

# Model : 3D1090

**10" WIDE HEAVY DUTY  
LABEL REWIND UNIT**

Designed & Manufactured  
in the UK

**Multi-  
Function**

## Model : 3D1090

# Heavy Duty 10" Wide Label Rewind Unit

The heavy duty 10" wide Label Rewinder **3D1090** uses dancing arm control to ensure no stress is placed on the printhead. It has adjustable speed and uses dynamic braking for precise control and reliability (no clutch and brake mechanism). The 3D1090 can be used in Reel-to-Reel mode suitable for change label orientation, changing core sizes, rewinding badly wound reel or label inspection.

### Key Features Include

- ◆ Heavy duty steel construction
- ◆ Handles label reels up to 10" wide and 12" diameter.
- ◆ On-line (from printer) and Off-line (Reel-to-Reel) Rewind capability.
- ◆ Inside/outside wind selector (control easily accessible on top of unit).
- ◆ Variable speed control up to 25m/min (76mm core).
- ◆ Dancing Arm Control (eliminates all stress on the printhead and increases printhead life).
- ◆ Universal rewind mandrel for winding on to coreless, 44mm or 76mm cores.
- ◆ Compatible with all thermal/thermal transfer printers (up to 25m/min).
- ◆ Optional On-line and off-line slitting - up to 5 blades (slitter can be purchased separately at a later date).
- ◆ Direct drive motor with dynamic braking (no unreliable clutch and brake mechanism).
- ◆ Optional Reel Guide Robust coated-steel chassis
- ◆ Optional Digital Label Counter.
- ◆ Dimensions (L,W,H): 452, 580, 487 mm
- ◆ Designed and Manufactured in the U.K.
